ENTERPRISE SOLUTIONS

We work with large organisations to help them better manage their IT assets and resources. Contact us for a more bespoke service.

Why AIS Technology?

Headquartered in Essex, AIS Technology has engineers distributed across the South and Midlands. Our expert help desk is included in all our service levels, and if a site visit is required we can usually dispatch an engineer the same day. AIS Engineers have worked for some of the largest global enterprises, and bring that experience to your business. No other SMB IT Support company can beat us on capability, combined with our competitive rates and partnerships with Microsoft, Dell, Cisco and others - we believe we offer the best value IT services on the market.
